SUPPLYING ALL YOUR AGGREGATE NEEDS

East Thames Aggregates Ltd are supplier merchants of Natural Primary Aggregates and Stone Products, Recycled Aggregates, Topsoil's, Cementitious & Bituminous materials to the Construction Industry throughout the United Kingdom.

Our customer base includes: Builders Merchants, Major Construction and Civil Engineering Companies, Drylining & Screeding Contractors, Rail Contractors, Roofing Contractors and Landscapers, to mention but a few.

Our products are selected from sustainable sources wherever possible that meet BES 6001 Certification from accessible Aggregate Quarries and Recycling Centres operating to WRAP Protocol Standards, which meet ISO 9001:2015 and ISO 14001:2015 certification.

Our network of hauliers all operate to high standards, which meet FORS, Network Rail Compliancy, ensuring safe working practices from all vehicles types, which include our Tippers, Grab Lorries, Crane & fork-Lift mounted vehicles.

Our Transporting Network have Euro 6 classified vehicles and are routed from the nearest Quarries or depots for minimal Environmental Impact and thereby reducing our Carbon Footprint.

Our continued customer focus is unrivalled, which gives us the ability to supply our customers a Tailored Range of Building and Specialised Aggregates and associated products, both loose and bagged formats to suit all market sectors.

We pride ourselves on offering our customers, products that meet the necessary criteria which are fit for purpose for all environments.

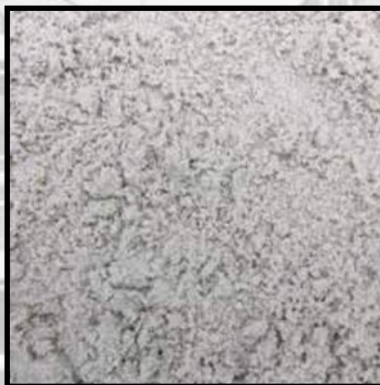

All products shown in this brochure are shown specifically on the date when the samples were taken. All photos are representative of the product and NO guarantees are given that the products supplied will match exactly due to the natural colour variation of aggregates. We reserve the right to amend/replace or remove any product from the range without notice.

All products are subject to availability. Printing processes can alter the natural colour of the aggregates shown and representative samples are available on request.

CONSTRUCTION AGGREGATES

MOT TYPE 1 SUB BASE

SHARP WASHED SAND

COPPER BROWN

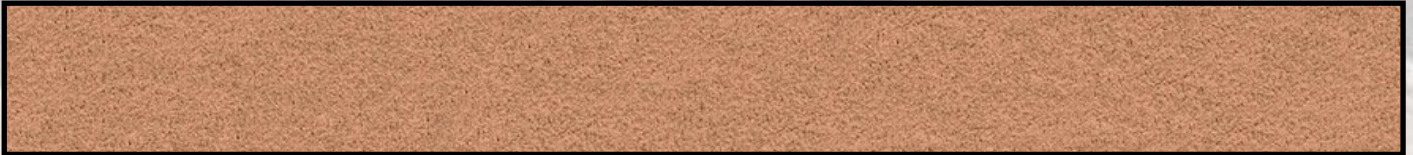

BLACK BROWN

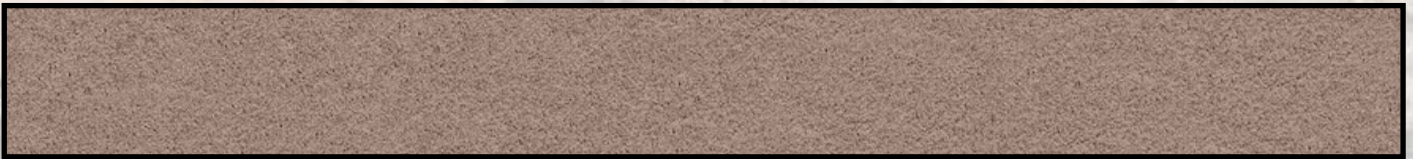

LIME/SAND MIX & READY TO USE MORTARS

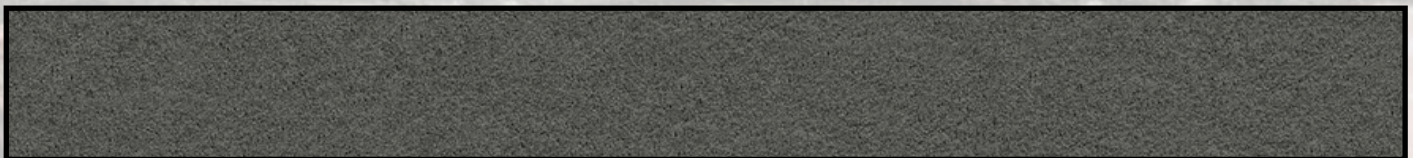

CHOCOLATE BROWN

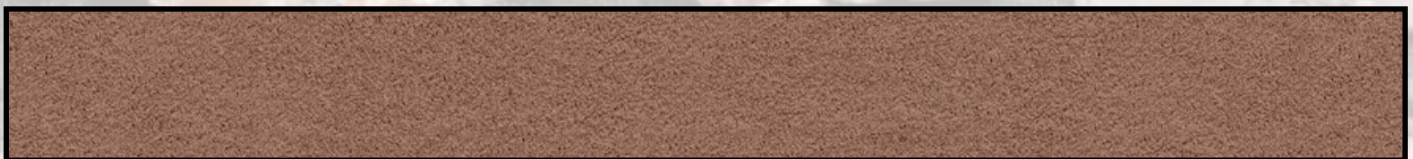

BURNT ORANGE

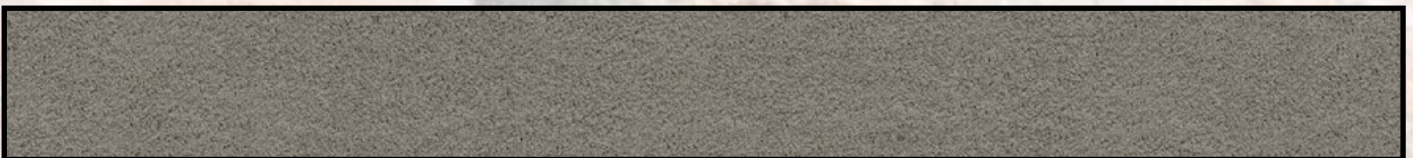

MAROON BROWN

BLACK

CHESTNUT BROWN

GREY

NOTES:

The coloured Sand/Lime range offers flexibility on site, but colour will depend on the OPC cement used, we would recommend the lightest available.

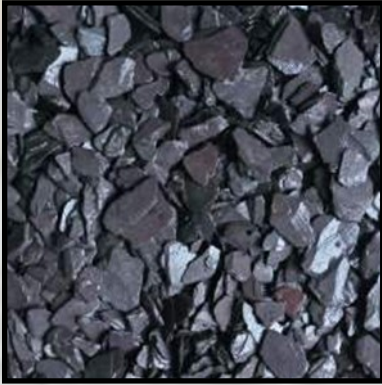

The entire ready-to-use mortars range is set retarded to provide a specified workable life to suit your projects schedule. This can be provided by mixes which are to be used the same day, or within 48 and 72 hours.

The coloured mortars range can help you realise significant aesthetic improvements to your project.

Ready to Use & LSM range of mortars are available in a larger variety of colours and shades.

All the mortars are manufactured to the requirements of BS EN 998 part 2 under a quality system certified to ISO 9001:2015.
